If confusion remains about what was said onstage before Saturday night's stage collapse at the Indiana State Fair, a concertgoer's YouTube clip captures the announcement in its entirety.

WLHK-FM (97.1) executive Bob Richards spoke on behalf of fair executive director Cindy Hoye and State Police Captain Brad Weaver.

Richards spoke for 55 seconds, and the statement is transcribed here:

"Good evening.

How are you?"

(cheers in crowd)

"As you can see to the west, there are some clouds.

We are all hoping for the best — that the weather is going to bypass us.

But there is a very good chance that it won't.

So just a quick heads-up before the show starts:

If there is a point during the show where we have to stop the show onstage, what we'd like to have you do is calmly move toward the exits and then head across the street to either the Champions Pavilion, the Blue Ribbon Pavilion or the Pepsi Coliseum.

And then, once the storm passes and everything's safe, we're going to try our best to come back and resume the show — which we have every belief that that's going to happen."

(cheers in crowd)

"So please get ready, because in just a couple of minutes we're going to try to get Sugarland onstage.

Have a great show."
